October 10, 2019

Dear Parents/Guardians,

Enclosed in today's communication folder you will find your child's MAP Student Progress Report which includes results from the fall testing window. As you know, MAP tests measure growth over time, provide information used to target individualized instruction, and are aligned to state standards. In addition to the Student Progress Report, there is a Quick Reference sheet that explains different parts of the progress report.

This year, our students will begin using an online learning program from Edmentum called *Exact Path*. *Exact Path* integrates with MAP Growth data and uses your child's MAP scores to create an individualized learning path specific to his or her academic strengths and needs. Each student has a unique, personalized experience with *Exact Path*. Each learning path consists of lessons, activities, and a quiz to further develop your child's skills. As your child successfully completes each skill level, he/she will earn trophies and badges and then move to the next level. Your child will be working on *Exact Path* in school, but he or she can also continue learning at home. On the back of this letter, you will find some additional information about *Exact Path*.

If you have any questions about your child's progress or about *Exact Path*, please contact his or her teacher. We are excited to begin using *Exact Path* and watching our students achieve.

Sincerely,

Diane M. Raguz  
Principal
